DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Bhatt et al. (U.S. Patent No. 6,405,191).

In considering claims 1-3, and 89, Bhatt discloses a method of providing a desired set of service policies to each of a plurality of subscribers, the method comprising:

identifying a plurality of processing rules, which provide a set of service policies desired by each subscriber; configuring an Internet service node with said processing rules corresponding to each of the subscribers (col. 3, lines 34-36);

receiving data in said internet node; determining in the Internet node a specific subscriber to whom the received data relates to; and applying in the Internet service node a plurality of processing rules related to the determined specific subscriber, wherein the applying is performed after the determining (Col. 3, lines 58-61).

Allowable Subject Matter

3. Claims 4-35 and 100-102 are allowed.

Art Unit: 2153

4. Claims 90-95 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
